| A Manchester first! In 1900 Margaret Ashton was elected to Withington Urban District Council and in 1908 she was the first woman to be elected to Manchester City Council. Ask your relatives if they have any memories of voting in the elections, or memories of their local councillor. Were they interested in politics? Did they ever join any protests? Are there any issues today which would motivate them to join a protest? Write your memories in the space below. | | |
